*Triple Expo*  
July 25th - August 15th  
*Performances run once a week, Saturdays at 5pm*

Gym presents *Triple Expo*, a performance series from Alexa West. *Triple Expo* is a dance. In it, West produces an economy of movement, isolating formal qualities of social behavior and signifying architecture, celebration, sport, and transportation. Three dancers move within the parameters of latitudinal and longitudinal lines on a low oval stage, the topography mapping their movements and rests. They develop patterns of behavior from their surrounds, cycling through sequences that respond to and support each other. *Triple Expo* considers the aesthetics of communal work; what is the form of the party? West choreographs a community as it speeds up, atrophies, and recycles, addressing networked systems and the performers laboring within them.
